PROJECTS

Spring Boot Quiz Application

Apr 2026

GitHub: github.com/harshu0316/BrainBuzz_QuizApp

- **Tech Stack:** Java17, SpringBoot3.2, Spring Data JPA, MySQL, Lombok, Maven, Postman
- Built a RESTful quiz application from scratch using layered MVC architecture with Entity, Repository, Service, and Controller components.
- Integrated a MySQL quiz_questions table using JPA entity mapping and Spring Data repository methods for category, difficulty, ID, and random-question retrieval.
- Implemented service-layer logic for answer validation, quiz score calculation, random question selection, and adding new questions to the database.
- Created and tested 8 REST endpoints in Postman for question retrieval, filtering, checking answers, submitting quizzes, and creating questions.
- Used JetBrains Qodana for static code analysis to identify code quality issues and improve maintainability.

Business Management System

Dec 2025 – Feb 2026

GitHub: github.com/harshu0316/business_Project_Springboot

- **TechStack:** SpringBoot, MySQL, SpringSecurity, REST APIs
- Developed a business management system to manage bulk orders, product stock, user-wise orders, and staff/customer workflows.
- Built backend REST APIs for CRUD operations and implemented role-based access concepts for administrators, customers, and staff.
- Used MySQL for data persistence.

Gym Management System

Sep 2025 – Oct 2025

GitHub: github.com/harshu0316/orca_gym-services

- **TechStack:** PHP, MySQL
- Developed a gym management web application to manage member registrations, membership plans, payment tracking, attendance records, and trainer assignments.
- Implemented separate login panels for admin, trainer, and member users, with MySQL-backed data storage for operational records.
